## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 4/12/06 has been considered by the examiner. The Apex Application note was incorrectly listed on the IDS as application note 32 and should be APEX Application note 35.

### ***Specification***

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

A title, such as the following, is suggested: A single diode rectifier for a switch mode power supply.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by APEX Application note 35.

With respect to Claim 1, APEX application note 35 discloses a power converter (Fig. 3), comprising:

an input circuit (Fig. 3 AC to DC) having a single diode rectifier (Fig. 3 D1); and a switched mode power supply IC (Fig. 3 SA14).

With respect to Claim 2, APEX application note 35 discloses a power converter as claimed in claim 1, wherein the input circuit (Fig. 3 AC to DC) further comprises a filter (Fig. 3C1) having a non-electrolytic capacitor ("C1 = 100uF because it is available with voltage rating of 200V, in electrolytic type", page 2, AC-TO-DC).
